**Twogether in Texas is a statewide program that offers workshops to couples thinking about marriage, couples already married or any individual interested in taking the eight-hour workshop.**

**Completion of the workshops entitles engaged couples to a \$60 marriage-license reduction fee certificate to be presented to the county clerk at the time the couple applies for a marriage license. In most cases, this certificate will reduce the normal marriage-license fee from \$72 to \$12. The county fee may vary in different areas.**

**The certificate also will waive the 72-hour waiting period that is required after a couple receives their marriage license.**

**The marriage license reduction fee certificate is good for one full year and may be used in any Texas county.**

**The certificate may only be used by the couple whose name appears on the certificate.**
